DIARY NOTES

DD/S

25 July 1966

1. At the Executive Committee Meeting:

a. I mentioned that the Educational Aid Fund might benefit by the suggestion to employees that overseas personnel who dispose of personal property at a profit, such as automobiles, might contribute the profit to the EAF. This would be in conformity with the Department of State requirement that U.S. officials overseas, in disposing of personal property from which a profit is realized, must dispose of the profit to charities in accordance with certain procedures. If this proves feasible, we should circulate this to overseas employees and include this item in the Support Bulletin.

b. Dr. Wheelon mentioned that the [redacted] is located in an area where there has been considerable racial agitation and a possibility of a security breach and damage to the Plant facilities exists. He advised that they would be considering the move of the Plant to a safer area. The Director suggested that I take up this matter for action. It was not realized that this was an NRO/OSA activity and I called Dr. Wheelon after the meeting and said I would limit my contribution to assistance which the Office of Security might render. I subsequently called [redacted] and directed him to contact OSA for this purpose.

2. On 15 July 1966 I arranged to make \$1,000 in cash available to an authorized individual at the direction of the Director. On this date I received \$590 in cash as not expended. I have asked [redacted] to adjust the records and so advise the Director.
